

Brentwood

# Brentwood PROFILE

### Full Lock Dimension

Brentwood's full-size lock provides more contact area than smaller locks found in economy panels, so it's less likely to shift and come loose.

### Full-Length Return

The full-length return featured in Brentwood's locking system surpasses shorter returns commonly found in other panels. As a result, it provides greater depth and more locking area, contributing to a performance-oriented panel that goes on secure and stays on, even in high winds.

### Exclusive Duranyl® Formula

Mastic's exclusive compound formulation enhances durability by making siding more resistant to cracking, impact, and thermal distortion. And Duranyl's color saturation process insures superior nick and scratch resistance.

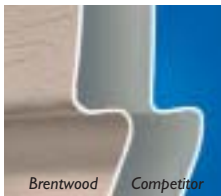

### GELOY® Sun Protection

Brentwood uses GE Plastics' high-performance resin to add extra UV protection to our deepest, most vivid colors. The result protects the color, resists fading, and maximizes long-term weatherability.

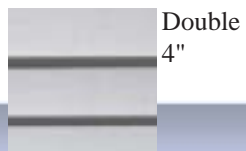

### Full 1/2" Projection

Brentwood takes economy into a new dimension by adding a full 1/8" more to the projection height, increasing the siding's rigidity for smoother, straighter appearance. Brentwood's 1/2" deep projection outperforms other panel's 3/8" laps... hands down.

### V.I.P. Warranty

There's more behind the Mastic name. Brentwood is backed by Alcoa, a name that inspires confidence. You'll get worry-free performance, long-lasting value, and beauty from an industry leader.

The system starts here, with America's finest selection of siding. Then we add an outstanding collection of shutters, window treatments, and finishing details that coordinate beautifully.

And with all of *Alcoa Living Design Collection's* exterior products, you get long-lasting beauty, rugged durability, and exceptional performance that's virtually maintenance-free. And it's backed by the "Best in the Business" Lifetime Limited Warranty for worry-free performance.

Vibrant colors and unlimited imagination coordinate your dreams with a beautiful Mastic reality. Explore our complete Color Guide for our exciting new collection.

At the intersection of beauty and economy, you'll discover a carefree Brentwood home.

## Brentwood

Brentwood siding offers the benefit of Mastic premium-designed performance at a savings that will make your home's new exterior one of the smartest investments on the block.

## The Art of Color...

### Engineered to Stay Secure

Mastic has engineered Brentwood siding to stay secure, even in high winds, with full-size locks and more lap depth than any other siding in its class.

### Saves Time and Money

Maintenance is a thing of the past. Brentwood provides long-lasting protection with little or no upkeep. Never peels. Never blisters. Never needs painting. And it's impervious to rot and insects.

## The Beauty of Design

### Lasts Longer

Don't mind the weather and let the sun shine in. Brentwood is made of advanced compounds and high-performance resins so scratches virtually disappear, the color stays fast, and the weather rolls right off, season after season.
